It's a 'Little' Girl For Thomas Turners

"First" come in large sizes at the Thomas Turner household.

The couple's first bay, a daughter, weighed in Monday at a hefty 12 pounds 4 ounces and stretched the tape measure to an even 2 feet. She was born at Harbor General Hospital.

She's an early bird, too, arriving 12:10 a.m.

The Turners, who live at 2310 1/2 W. Compton Blvd., Gardena, have named their "little" girl Tian, reflecting the Hawaiian heritage of her mother, the former Betty Chang.

These fruit strips pack nicely in lunch boxes. Topped with whipped cream or ice cream they make family dessert.

Apples Make News Now, as Always

Apples have been news since that day in the Garden of Eden!

A golden apple figured importantly in the Trojan War. Sir Isaac Newton discovered the law of gravity with the aid of an apple.

In Switzerland, William Tell was successful when required to shoot an apple from his son's head and in this country Johnny Appleseed put apples in the limelight with his travels to propagate this fruit.

Today apples are in the news because Crisp-Aire McIntosh apples picked last fall in New York and New England orchards are in the markets now just as hard, crisp and juicy as the day they left the tree.

Now Awake
These apples have been in "controlled atmosphere" storage, a new and revolutionary method developed in England and perfected for use in this country by Cornell University.

The apples are placed in airtight rooms at harvest and through the natural respiration of the apples, the oxygen content of the rooms is reduced to a point where the apples are literally put to sleep.

Once they're out of storage, these sleeping Macs awaken gradually with the result that they retain their orchard freshness and crispness even longer than apples from ordinary cold storage.

Continental Touch
If you are anxious to bring spring to your life these March days, you'll find these Crisp-Aire Macs effective.

Their rosy-checked goodness will add a lively note to fruit bowls, lunch kits and between-meal snacks.

Try them for a lunch or dinner finale. For a continental touch, serve with crackers and cheese.
